

Copepoda

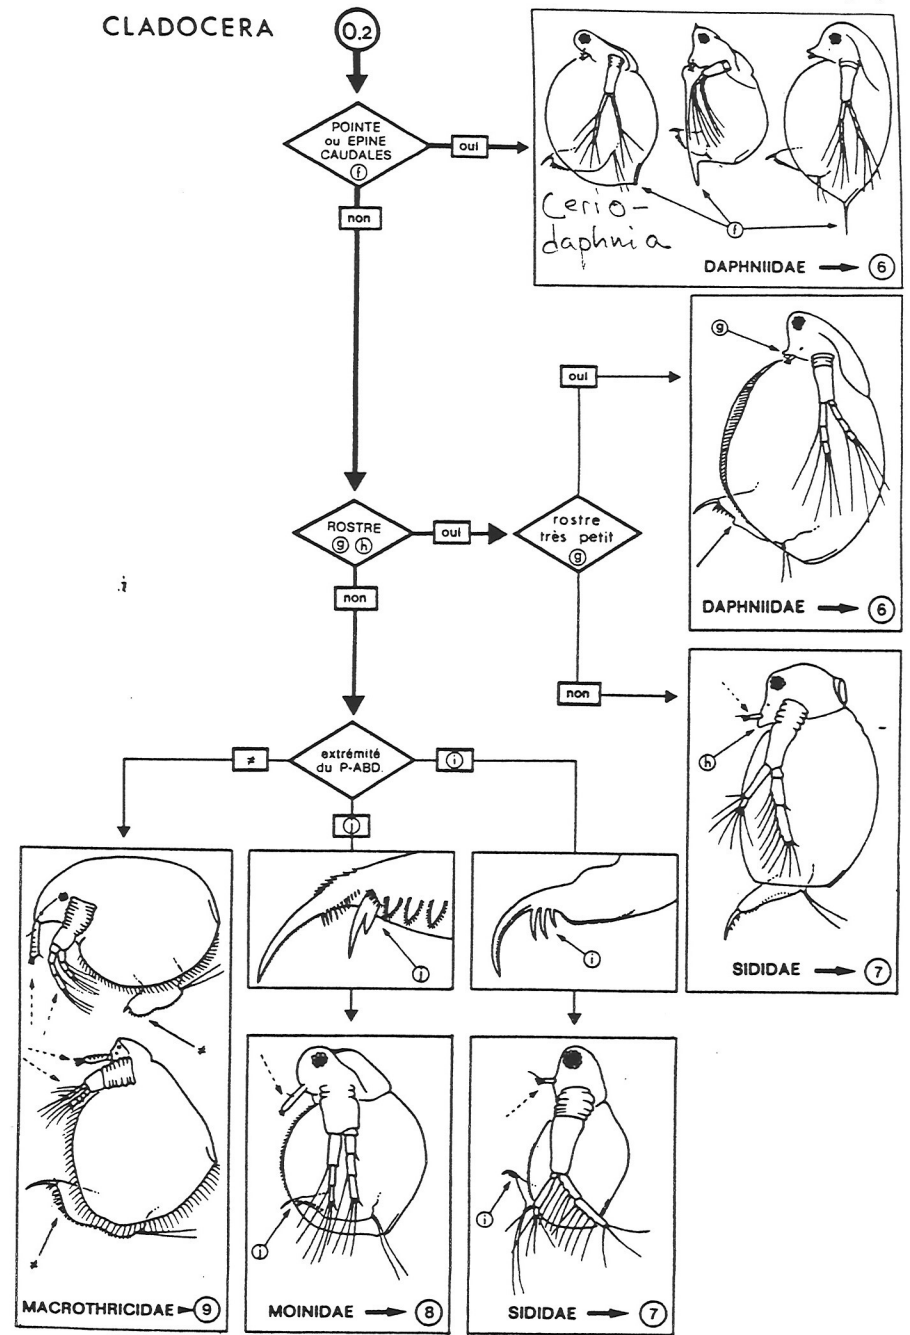

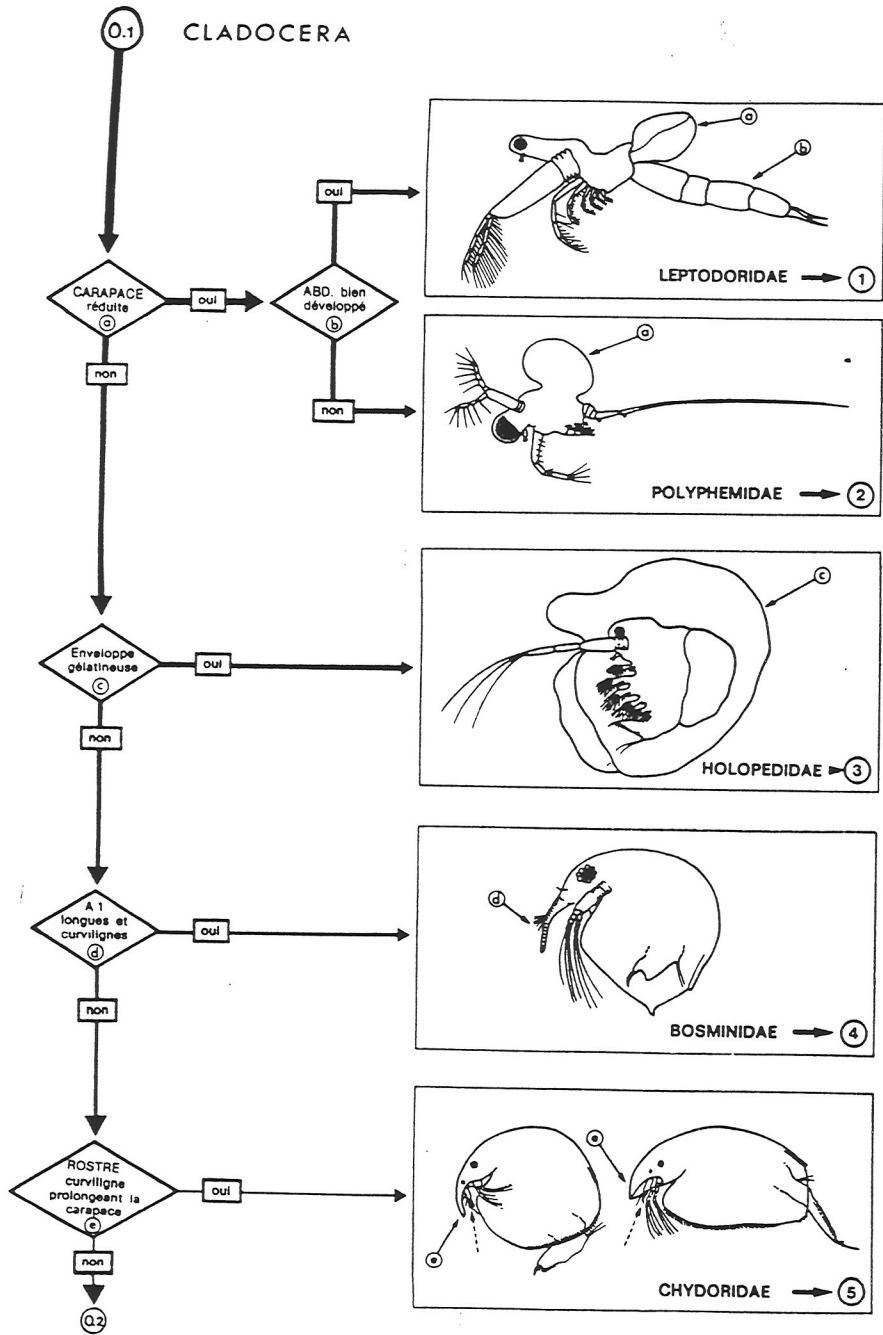

Cyclopoida

Calanoida

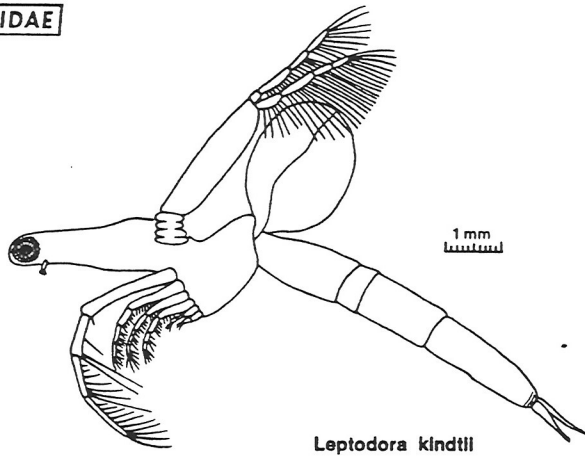

Eurytemora lacustris

1 LEPTODORIDAE

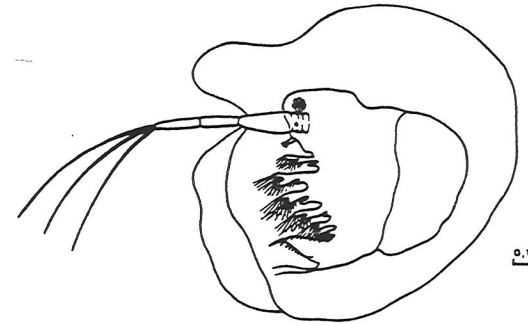

une seule espèce

Leptodora kindtii

3 HOLOPEDIDAE

une seule espèce

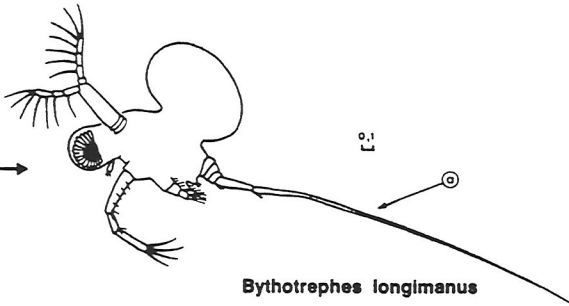

Holopedium gibberum

2 POLYPHEMIDAE

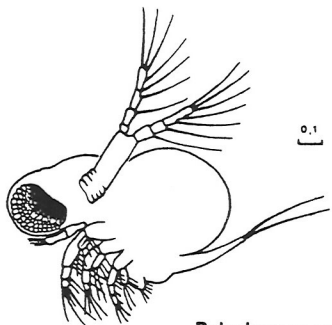

prolongement caudal très long

oui

non

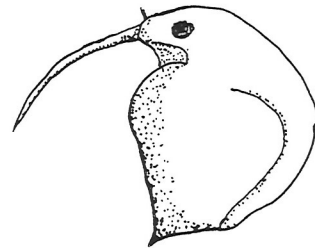

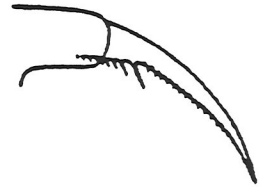

Bythotrephes longimanus

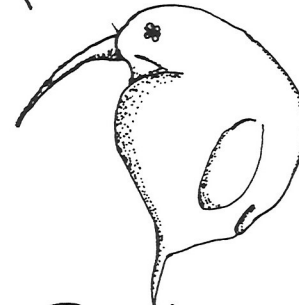

Polyphemus pediculus

4 BOSMINIDAE

Bosmina coregoni

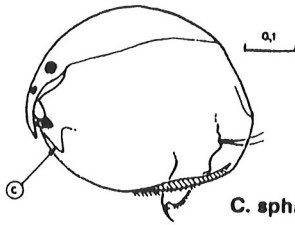

Bosmina longispina

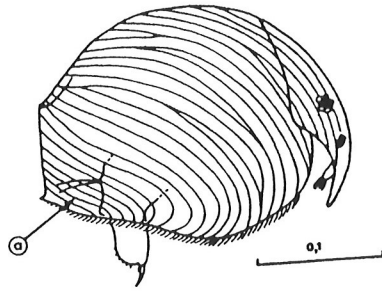

Bosmina longirostris

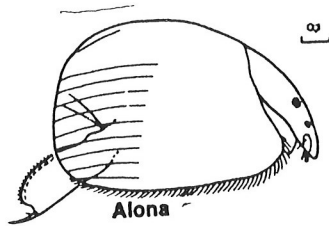

5. CHYDORIDAE

C. sphaericus

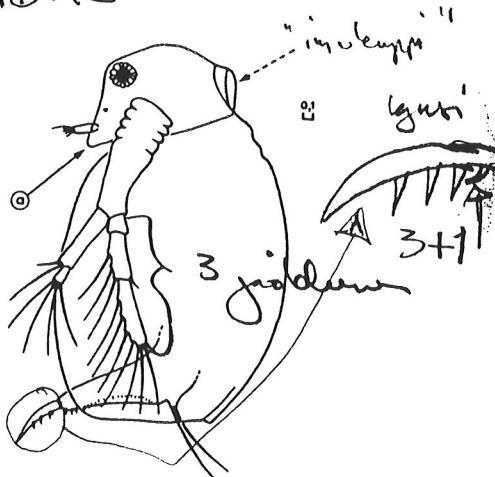

A. nana

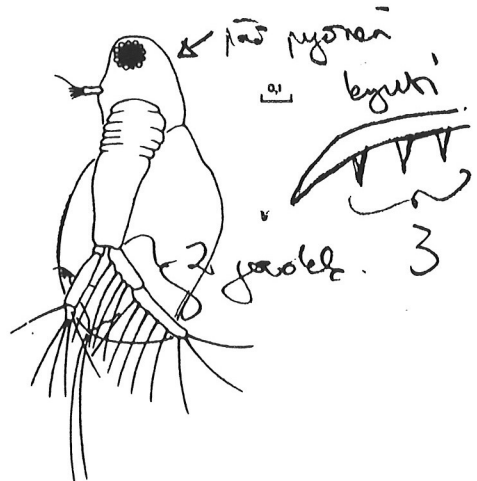

Alona

SIDIDAE

7.

Sida crystallina

Diaphanosoma brachyurum
